Education

Graphic Era Hill University

Jul 2024 – Jul 2027

Bachelor of Computer Applications (AI & Data Science) — **CGPA: 9.48**

Jaycees Public School

May 2022 – May 2024

Intermediate (Senior Secondary) — **86%**

Technical Skills

- **Programming Languages:** Java (**Advanced**), JavaScript (**Advanced**), Python (**Intermediate**)
- **Frontend:** React.js, HTML5, CSS3
- **Backend:** Node.js
- **Databases:** MySQL
- **Developer Tools:** Git, GitHub
- **Core Concepts:** Data Structures & Algorithms, Problem Solving

Experience

Software Engineer Intern – ElvoraGo

Sep 2026 – Present

- Develop **client-focused web solutions** across frontend, backend, APIs, and databases, translating project requirements into functional and scalable implementations.
- Lead **client outreach and networking**, covering prospecting, requirement gathering, project coordination, and delivery.

Projects

AshaPure – Smart Milk Delivery Platform

GitHub

Tech Stack: *React.js, Node.js, Express.js, MongoDB*

- Architected and developed a **MERN-based dairy e-commerce platform** with **18 frontend routes** and **25 REST API endpoints** supporting shopping, checkout, orders, subscriptions, rewards, and admin operations.
- Implemented **JWT authentication** and **role-based access control (RBAC)**, with responsive QA across **4 viewport sizes** and verified production builds through **API smoke testing**.

Arena Self-Driving – Autonomous Highway Driving Simulator

GitHub

Tech Stack: *Python, HighwayEnv, Gymnasium, NumPy, SARSA, FastAPI, PyGame*

- Developed a **reinforcement learning highway-driving simulator** using **tabular SARSA** across **864 discretized states** and **5 driving actions**, enabling autonomous policy learning through a **4,320-entry Q-table**.
- Implemented **human demonstration recording** and **warm-start training**, with browser-based streaming of **4 training metrics** for model evaluation and agent playback.

Certifications & Achievements

- **CodeCraft 2025 – Hack the Spring, Bhimtal** — **1st Position** in the coding competition.
- **National-Level Hackathons** — Reached the **Final Round** of **Watch the Code** and **Nirvan**.
- **Monthly Coding Series** — Earned **Gold, Silver & Bronze** across **3 university-level coding competitions**.
- **Tech Quiz** — Secured **2nd Position twice** in university-level Tech Quiz competitions.
- **Design Spark 2026** — Secured **Runner Up** in the university-level competition.
- **Webathon 2.0 2024** — Secured **2nd Runner Up** in the web development competition.
- **Data Structures & Algorithms (Java)** — Covered **DSA, recursion, trees, and complexity analysis** using Java.
